

### Review Form 3

Journal Name:	<a href="#">Journal of Advances in Biology &amp; Biotechnology</a>
Manuscript Number:	Ms_JABB_127130
Title of the Manuscript:	Development of Tomato Leaf Curl Virus Resistance: From Plant Breeding to Genome Editing-A Mini Review
Type of the Article	Minireview Article

#### PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This text is important, because it thoroughly describes the yellow leaf curl virus that attacks many plants and causes a lot of damage	
Is the title of the article suitable? (If not please suggest an alternative title)	The title already describes the content	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	In the abstract, please add a summary of the results, which have been described in the body of the article	
Are subsections and structure of the manuscript appropriate?	I suggest adding <b>classical plant breeding</b> methods and <b>mutations</b> for virus control to the paper	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Begomoviruses have either one (monopartite) or two (bipartite, DNA A and DNA B) genomic components The begomovirus are persistently, circulatively and non-propagatively vectored by the arthropod whitefly <i>Bemisia tabaci</i>	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	-	
<u>Minor</u> REVISION comments  Is the language/English quality of the article suitable for scholarly communications?	Enough	
<u>Optional/General</u> comments	I think if you add a sub-chapter on classical breeding methods and mutations, the article will be more complete	

**Review Form 3**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

**Reviewer Details:**
