Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

### Review Form 3

#### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	This manuscript gives a clear and detailed review of grass fibers and their uses in the textile industry, focusing on their eco-friendly benefits. It explains the chemical makeup, physical properties, and advantages of these natural fibers thoroughly. The authors highlight the potential of grass fibers to create more sustainable textiles and encourage further research in this area. With a well-organized review of existing studies, this work is a helpful resource for researchers and professionals.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	The title is appropriate but could be made more specific to reflect the paper's content and focus. Ex: "Sustainable Applications of Indian Grass Fibers in the Textile Industry"	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	Yes. It effectively introduces the topic of Indian grasses as a sustainable textile resource, highlights the key grass species, and mentions their potential applications.	
<b>Are subsections and structure of the manuscript appropriate?</b>	In the formatting section, It needs some correction. Please use a single space on the whole paper. <input type="checkbox"/> In Tables 2 and 3, label the properties as a), b), c), etc. for clarity. <input type="checkbox"/> Include the actual data from the tables within the description to summarize what they show.	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	The authors have done a great job reviewing related research, carrying out detailed experiments, and clearly explaining their findings. The data is well-presented, and the conclusions are logical and supported by evidence. The study follows scientific methods and is expected to make a valuable contribution to the textile industry.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	Yes, the provided references are sufficient and up-to-date.	
<b>Minor</b> REVISION comments		
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	The language of the article is good.	
<b>Optional/General</b> comments	The manuscript is well-organized and easy to follow, with clear headings and subheadings. But give space between two paragraphs/ figure and figure name. The font size was inconsistent, ensure it is uniform throughout and make corrections to minor spelling errors in the manuscript.	

#### PART 2:

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
