Manuscript Number:	Ms_EJMP_126150
Title of the Manuscript:	Design, Development and Optimization of Polyherbal Powder Shampoo using 32 Factorial Design
Type of the Article	research

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The concept of Polyherbal Powder Shampoo holds potential for innovation within the personal care and cosmetic industries. This type of product, combining multiple herbs in a powder form for hair cleansing, can be positioned as an eco-friendly, chemical-free alternative to liquid shampoos. Below are some ideas for its novelty and development: Natural Ingredients and Traditional Knowledge: Polyherbal formulations draw on the traditional knowledge of Ayurveda and herbal medicine, using various herbs known for their benefits to hair health	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	yes	
Are subsections and structure of the manuscript appropriate?	Quite formatting required	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	he manuscript appears to be scientifically robust and technically sound due to its strong foundation in traditional herbal medicine and Ayurvedic principles, which have been studied and utilized for centuries in hair care. It effectively incorporates natural ingredients, such as Amla, Shikakai, and Reetha, whose benefits are well-documented in both traditional and modern scientific literature. The formulations are based on scientifically validated bioactive compounds known for their cleansing, antimicrobial, and hair-nourishing properties. Additionally, the ecological focus, supported by the use of sustainable and chemical-free alternatives, reflects a technically sound approach to addressing modern consumer needs for eco-friendly and non-toxic hair care solutions.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Please ask to author to add recent refrence	

Review Form 3

Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Lack of scientific language in article	
Optional/General comments	Table 1 not found,proper formatting is not done ,spacing problem is also there	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
