Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript provides the information and fill the gap by discussing the Emotional Intelligence in construction's worker safety. The study focus on the emotional competencies that impact safety management in a high risk sector provides valuable insights that could inform both safety protocols and workforce development in construction.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title of article is suitable.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive but the results and findings are not mentioned. Also the keywords of abstract are missing.	
Are subsections and structure of the manuscript appropriate?	Yes, the subsections and structure of the manuscript are appropriate, providing clear and logical flow from introduction to conclusion.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript demonstrates scientific robustness through its well-defined research objective, appropriate methodology and through analysis. The study use of established EI components and their relevance to construction site safety is grounded in well-supported theoretical framework. Adds practical and theoretical value, making the manuscript both scientifically sound and technically relevant.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, the references are sufficient but add some more references from 2020 to 2024. And follow APA format for referencing.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Quality of English language is good and clearly express its case.	
Optional/General comments	Cite the source of questioner were adopted. Write the discussion separately and match the results with prior studies. Conclusion is written very short, add more paragraph. And in last, write the recommendation separately.	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
