Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript provides valuable insights on precautionary measures to be adhered to for safety on construction sites. It will inform architects and construction engineers on how to design their construction projects with workers' safety considerations. Furthermore, the manuscript will enhance the safety of the site workers in construction projects.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is suitable for the manuscript content.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The article's abstract is comprehensive; however, some sentences are unnecessary to include in the abstract section. The first five sentences should be shifted to the introduction section.	
Are subsections and structure of the manuscript appropriate?	The manuscript's structure is appropriate to a large extent, although the problem statement is not clearly stated. Likewise, citations should adhere to current APA referencing style.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript follows scientific procedures to a large extent. However, the problem statement and research objectives must be clearly stated. Moreover, the suggested corrections should be considered to make the article more valuable to the body of scientific knowledge. The author is also advised to clearly indicate the research design with respect to the data collection method employed.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient. Nevertheless, most of the references in the manuscript need to be updated to reflect contemporary realities. The author should work on this to make the paper sound and relevant.	
Minor REVISION comments	The English language quality is suitable for scholarly communications.	
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments	The paper is good and should be published after major revision.	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
