Journal Name:	Asian Journal of Chemical Sciences
Manuscript Number:	Ms_AJOCS_127873
Title of the Manuscript:	A Study of Chemical Composition and Bioactivity of Folk Medicinal Plant: Teucrium Polium
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Research related to traditional medicine is very important to be carried out. Especially to identify the chemical composition and bioactive content contained in a plant. Therefore, this research is very useful for the development of science about traditional medicinal plants that are efficacious in certain regions and countries.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article is already suitable for the substance of the research that the author expects	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of this article is not comprehensive, because a comprehensive abstract contains the background (introduction), objectives, methods, results and conclusions. While this article does not explain why this research needs to be carried out and the research method is systematic.	
Is the manuscript scientifically, correct? Please write here.	The manuscript of this article has met scientific principles, because it has been written with an approach to scientific principles.
