

Review Form 3

Journal Name:	Asian Journal of Research in Infectious Diseases
Manuscript Number:	Ms_AJRID_127420
Title of the Manuscript:	EXTRAPULMONARY TUBERCULOSIS AT THE SYLVANUS OLYMPIO UNIVERSITY HOSPITAL CENTER
Type of the Article	original study

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This work is relevant. Since, this work provides data on various localizations of a specific process in adults, which are more difficult to diagnose compared to pulmonary damage. The authors talk about another important issue - the combination of TB with HIV infection, which go in parallel and pose a social danger.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	yes	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The structure of writing and design of the article meets modern requirements. The authors demonstrate the criteria for inclusion and rejection of patients in the study. Modern methods of diagnosis of extrapulmonary tuberculosis were used. It is necessary to include in the paragraph ETHICAL CONSIDERATION - whether the receipt of information regarding patients corresponds to the Helsinki Declaration!!!	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments	There is no mention in the article for tuberculous meningitis and meningoencephalitis, which are often diagnosed as an extrapulmonary lesion, especially in HIV-infected patients. Conclusions need correction.	

Review Form 3
