

### Review Form 3

Journal Name:	<a href="#">European Journal of Nutrition &amp; Food Safety</a>
Manuscript Number:	Ms_EJNFS_127277
Title of the Manuscript:	Formulation and nutritional evaluation of extruded vermicelli from browntop millet
Type of the Article	Original Research Article

#### PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript significantly contributes to the scientific community by highlighting the potential of browntop millet as a valuable ingredient for health-focused, extruded food products like vermicelli. It addresses the growing demand for nutritious and sustainable food alternatives while providing detailed insights into the product's formulation, nutritional profile, and storage stability. The research aligns with global efforts to promote millets for food security and improved dietary habits.	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is suitable but it seems better if the following one is used as it is more attractive  "	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	fine	
Are subsections and structure of the manuscript appropriate?	The first sentence of introduction is ambiguous and introduction is too short and is consist of only 8 references which are insufficient for publishing a paper	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript demonstrates scientific robustness and technical soundness through its detailed and systematic approach to studying the formulation and evaluation of browntop millet-based vermicelli. It incorporates established methodologies for nutritional analysis, sensory evaluation, and storage studies, ensuring reliable and reproducible results	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :	Atleast 25 more references are suggested to add, literature review to write manuscript seems somehow week	

### Review Form 3

Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	fine	
Optional/General comments		

### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

### **Reviewer Details:**
