Journal Name:	Asian Journal of Economics, Business and Accounting
Manuscript Number:	Ms_AJEBA_127646
Title of the Manuscript:	The Impact of Leadership Skills on Information Technology Project Success in Lagos State, Nigeria
Type of the Article	Short Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript highlights the vital role of leadership skills, such as communication, decision-making, and adaptability, in IT project success within Lagos State, Nigeria. It fills a significant research gap by focusing on leadership in resource-constrained and dynamic environments. The findings offer valuable guidance for improving IT project outcomes in emerging markets.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title " <i>The Impact of Leadership Skills on Information Technology Project Success in Lagos State, Nigeria</i> " is suitable. It accurately reflects the focus of the study and aligns with the content, making it clear and relevant for the intended audience. No changes are necessary.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive, effectively summarizing the research gap, methodology, key findings, and implications. It provides a clear overview of the study's focus on leadership skills and their impact on IT project success in Lagos State. No additions or deletions are necessary, as it sufficiently captures the essence of the manuscript.	
Is the manuscript scientifically, correct? Please write here.	Yes, the manuscript is scientifically correct. It employs a robust methodology, including a well-defined research design, appropriate sampling, and thorough data analysis. The findings are logically derived and supported by relevant literature, ensuring scientific validity.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient and include recent and relevant sources that support the study's objectives and findings. However, incorporating more studies on global IT project management trends and leadership in emerging markets could further enhance the manuscript's breadth and context. For example, additional works on agile methodologies or cultural intelligence in global IT projects may provide valuable perspectives.	
Is the language/English quality of the article suitable for scholarly communications?	Yes, the language and English quality of the article are suitable for scholarly communication. The writing is clear, concise, and professional, effectively conveying the research's purpose and findings. Minor improvements in sentence flow could further enhance readability, but these are not critical.	
<u>Optional/General</u> comments	Accept the manuscript
