

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_127880
Title of the Manuscript:	Study the relationship of IFN- γ (+874A/ T) polymorphism, and some cytokines with Breast cancer in a population from Baghdad city
Type of the Article	Original research article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This is an interesting paper that shows data on certain community with the same origin, natural environment and lifestyle in relation to one of the most common oncologic issues nowadays. Along with that, every genetic investigation leads us to a better comprehension of this problem.	
Is the title of the article suitable? (If not please suggest an alternative title)	No, it is not, especially the grammar. I suggest: IFN- γ (+874A/ T) Polymorphism and Certain Cytokine Relation to Breast Cancer in Baghdad City Population	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive, but with some formatting issues (different fonts).	
Is the manuscript scientifically, correct? Please write here.	The base is scientifically correct. What is Baghdad overall population and is the group representative?	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Not uniformly formatted, but recent ones are present and sufficient.	
Is the language/English quality of the article suitable for scholarly communications?	Every segment of the text needs language improvement	
Optional/General comments	Over what period of time was this study conducted? Was it prospective or retrospective? What was the lower age limit, 20 or 25 yrs old? Is there any follow up of the control group and how did you conclude which genotype is linked to certain prognosis?	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
