

### Review Form 3

Journal Name:	<a href="#">Journal of Advances in Microbiology</a>
Manuscript Number:	Ms_JAMB_127348
Title of the Manuscript:	Bacterial Etiology of Lower Respiratory Tract Infection that Isolated from Tripoli University Hospital (TUH) Units in 2019
Type of the Article	

#### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript is studied the very important point but the data about bacterial isolation and identification was insufficient (Not provide). It should be rewritable and illustration the methods and techniques were used.	
Is the title of the article suitable? (If not please suggest an alternative title)	it is suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It was lake the data about isolation and identification such as different types of media used to culture the different types of bacteria	
Are subsections and structure of the manuscript appropriate?	Insufficient data	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	It is traditional pathway for research paper and lake of advanced techniques for identification of the bacteria such as VETIC or PCR or Q-PCR	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	yes	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments	The manuscript should use advanced techniques for identification the bacteria	

**Review Form 3**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

**Reviewer Details:**

Name:	<b>Ehab Ali Fouad</b>
Department, University & Country	<b>National Research Centre, Egypt</b>
