

### Review Form 3

Journal Name:	<a href="#">Journal of Advances in Medicine and Medical Research</a>
Manuscript Number:	Ms_JAMMR_127484
Title of the Manuscript:	Correlation of body mass index with blood pressure in pregnant patients with severe preeclampsia
Type of the Article	Original research

#### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Preeclampsia is one of the most important diseases that can cause maternal and fetal mortality and morbidity. Obesity is increasing all over the world. Increasing obesity also increases the incidence of many related diseases, especially cardiovascular diseases. For this reason, I think this study examining the relationship between obesity and preeclampsia is valuable.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes. It is good.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	<ul style="list-style-type: none"> <li>- In the introduction section, explain the background of the subject of the study with the support of literature, but do not use p values when doing this.</li> <li>- In the introduction section, when citing a study in the literature, give the main findings and results of the study. It is unnecessary to give too much detail, such as stating the number of participants in the study.</li> <li>- The method, results and discussion sections are well and clearly written.</li> </ul>	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The number of references is sufficient and most of them consist of current studies.	
Minor REVISION comments	<b>Minor REVISION</b>	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
<b>Optional/General</b> comments	I think that when the authors make the necessary corrections, it can be published with the approval of the editor.
