

**Review Form 3**

Journal Name:	<a href="#">Journal of Advances in Medicine and Medical Research</a>
Manuscript Number:	Ms_JAMMR_127484
Title of the Manuscript:	Correlation of body mass index with blood pressure in pregnant patients with severe preeclampsia
Type of the Article	

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
.	<p><b>Kindly avoid using abbreviations like SP for Severe Pre eclampsia. It could've been mentioned prior.</b></p> <p>But it leaves us wondering what SP means.            Classification of obesity according to ACOG can be added to the article.            The usage of charts and graphical representations are commendable.            The style of writing is good.            Systolic and diastolic values could have been represented as such for a better idea or by means of appropriate charts</p>	
<p><b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b></p>	<p><b>This manuscript is important in that it highlights the association between obesity --- pregestational and gestational with pregnancy related complications especially Pre eclampsia.</b></p> <p><b>The results though negative in this article can serve as a basis for futuristic research purposes</b></p>	
<p><b>Is the title of the article suitable? (If not please suggest an alternative title)</b></p>	<p><b>Yes</b></p>	
<p><b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b></p>	<p>The abstract is comprehensive. The author has highlighted that only Blood pressure component of Severe pre eclampsia has been studied.            Not the related maternal or foetal complications. It adds further light on the pathophysiology of pre eclampsia</p>	
<p><b>Are subsections and structure of the manuscript appropriate?</b></p>	<p><b><u>Yes. Appropriate and adequate.</u></b></p>	
<p><b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b></p>	<p><b><u>The research has a good sample size. The manuscript is scientifically robust</u></b></p>	
<p><b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b></p>	<p><b><u>Yes. References are sufficient</u></b></p>	

### Review Form 3

Minor REVISION comments <b>Is the language/English quality of the article suitable for scholarly communications?</b>	Language quality is good	
<b>Optional/General</b> comments	The study is focussed on correlating blood pressure and BMI. The results are negative in this study which is seen only in a few studies in addition to this study Future research is required to lookupon the correlation between obesity and individual complications of Severe Pre eclampsia	

### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
