

### Review Form 3

Journal Name:	<a href="#">Journal of Advances in Medical and Pharmaceutical Sciences</a>
Manuscript Number:	Ms_JAMPS_126094
Title of the Manuscript:	Assessment of the Effects of Stone Herbal Mixture Drink on Liver Parameters
Type of the Article	Original Research Article

#### **PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Are subsections and structure of the manuscript appropriate?		
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		

**Review Form 3**

<p>Minor REVISION comments</p> <p><b>Is the language/English quality of the article suitable for scholarly communications?</b></p>		
<p><b><u>Optional/General</u></b> comments</p>	<p><u>Reviewer Response to Editor</u></p> <p>Date: 2024-10-24</p> <p>Manuscript Title: Assessment of the Effects of Stone Herbal Mixture Drink on Liver Parameters</p> <p><b>Overall Recommendation:</b> Minor Revision Required</p> <p><b>Scientific Merit:</b> The manuscript presents an experimental investigation into the effects of a stone herbal mixture on liver parameters using a well-designed animal model. The research question is relevant to both traditional medicine and modern hepatology. The use of Silymarin as a positive control strengthens the experimental design.</p> <p><b>Detailed Comments:</b></p> <p><b>Introduction:</b> The background effectively establishes the context of herbal medicine use. The rationale for investigating liver parameters is well-justified. Consider adding more recent references on herbal medicine safety studies.</p> <p><b>Methods:</b> The experimental design with six groups is appropriate. The dosing regimen and group allocation are clearly described. Recommend including more details about:</p> <ul style="list-style-type: none"><li>- The specific composition of the stone herbal mixture</li><li>- Duration of the treatment period</li><li>- Methods used for liver parameter analysis</li></ul> <p><b>Results:</b> Include statistical significance levels for all comparisons. Consider adding visual representations of key findings. Clarify any dose-dependent effects observed.</p> <p><b>Discussion:</b></p>	

### Review Form 3

	<p>Expand on the mechanism of action of the herbal mixture.</p> <p>Compare findings with similar studies in the literature.</p> <p>Address potential limitations of the study.</p> <p>Discuss clinical implications and future research directions.</p> <p><b>Technical Comments:</b></p> <p>Ensure consistent formatting throughout the manuscript.</p> <p>Review statistical analysis methods and ensure appropriate tests were used.</p> <p>Consider adding a graphical abstract.</p> <p><b>Final Recommendation:</b></p> <p>The manuscript addresses an important topic in herbal medicine research and provides valuable insights into the effects of stone herbal mixture on liver parameters. With the suggested revisions, particularly regarding methodology details and discussion expansion, this paper will make a meaningful contribution to the field. I recommend minor revision before publication.</p>
