Title of the Manuscript:	Emerging Challenges in the Treatment of Lung Cancer During COVID-19 Infection
Type of the Article	Review Article

**PART 1: Comments**

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript lacks clarity and contains repetitive points, making it difficult to follow. Additionally, it fails to provide specific data or actionable insights, limiting its impact on the scientific community.	
Is the title of the article suitable? (If not please suggest an alternative title)	Relevant	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is broad but lacks clarity and specificity. Adding quantitative insights, ethical challenges, and future directions would enhance its impact, while removing redundant points about radiologic overlaps and follow-ups would improve conciseness.	
Is the manuscript scientifically, correct? Please write here.	No... Technically weak content.. There is no comparison analysis based in results	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Definitely Not... Author should add most recent article instead of adding more article	
Is the language/English quality of the article suitable for scholarly communications?	It contains grammatical errors, awkward phrasing, and redundant statements, which hinder clarity and readability.	
<u>Optional/General</u> comments
