

Review Form 3

Journal Name:	Asian Journal of Fisheries and Aquatic Research
Manuscript Number:	Ms_AJFAR_125446
Title of the Manuscript:	Sensory Quality of Organic Tilapia (<i>Oreochromis niloticus</i> L.) in the Philippines: Implications for Market Assistance and Preference
Type of the Article	Original Research Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This study underscores the importance of sensory quality assessments alongside nutritional analysis in informing consumer choices and promoting organic fish products in the ever-evolving aquaculture landscape & evaluates the sensory quality and proximate composition of steamed and fresh organic tilapia for market acceptance and consumer preferences. The growing global and domestic demand for healthier and more sustainable food products, organic aquaculture is emerging as a viable alternative to conventional fish farming.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	In present investigations from the proximate analysis, organic tilapia showcases valuable nutritional attributes, including a high protein content and a low - fat content, making it an appealing choice for health-conscious consumers. Its adequate moisture and mineral content further support its role as a nutritious seafood option.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :	Yes	

Review Form 3

Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	References should be arranged appropriate manner	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
