Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript focuses on the importance of using inorganic, organic and biofertilizers to increase the yield of garlic production. Garlic production and consumption is important because garlic contains antioxidants that are beneficial to health. Garlic is also a high value crop with substantial market demand. Garlic thrives in diverse climates and soil types, making it a viable crop for various agricultural systems, from smallholder farms to large-scale production.	
Is the title of the article suitable? (If not please suggest an alternative title)	The impact of fertilizers (NPK, Vermicompost, FYM and Arbuscular Mycorrhiza) on growth and yield of garlic.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is not comprehensive. Include the methodology used and why this research was carried out. What is the previous literature about the growth yield and how well did inorganic, organic and biofertilizers affect the growth yield?	
Is the manuscript scientifically, correct? Please write here.	The manuscript is scientifically correct but so many things are missing. The spectroscopic result was not included.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are insufficient and most are not recent.	
Is the language/English quality of the article suitable for scholarly communications?	The language is suitable.	
Optional/General comments	PLEASE SEE ATTACHMENT
