

Review Form 3

| | |
|--------------------------|---|
| Journal Name: | Asian Journal of Advances in Agricultural Research |
| Manuscript Number: | Ms_AJAAR_127920 |
| Title of the Manuscript: | Effect of inorganic, organic and biofertilizers on growth and yield of garlic (<i>Allium sativum</i> L.) |
| Type of the Article | Original Research Article |

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Comments

| | Reviewer's comment | Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i> |
|--|--|---|
| Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part. | This manuscript is valuable to the scientific community as it highlights the impact of inorganic, organic and biofertilizers on garlic growth and yield. The finding particularly the results with NPK treatment offers practical insights for enhancing garlic productivity. It also emphasizes the role of fertilizers in sustainable agriculture by comparing biofertilizer efficiency. | |
| Is the title of the article suitable? (If not please suggest an alternative title) | Yes but for precision and appeal you might consider including the garlic variety in the title as it provides specificity to the research context | |
| Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here. | <p>Additions if possible</p> <ul style="list-style-type: none"> - Clearly state the purpose of the study in one sentence. - Briefly mention the experimental design such as randomized block design and the number of treatments compared. - Highlight the relevance of the findings for garlic production practices to emphasize the study's significance <p>Suggested deletions</p> <ul style="list-style-type: none"> - Results are important but ensure they are summarized rather than detailed excessively | |
| Is the manuscript scientifically, correct? Please write here. | The manuscript appears scientifically correct with clear objectives, methodology and analysis of results. | |
| Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. | Yes | |
| Is the language/English quality of the article suitable for scholarly communications? | Yes with a few grammatical corrections, typing corrections and use a consistent format for citations | |
| <u>Optional/General</u> comments | | |

PART 2:

| | Reviewer's comment | Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i> |
|--|--|--|
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> | |
