PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript is of significant importance to the scientific community as it addresses the critical challenge of weed management in major food crops, a key factor in ensuring sustainable agricultural productivity. By focusing on the availability and efficacy of selective post-emergence herbicides in the Haut-Sassandra region, it provides valuable insights into region-specific weed control strategies. The findings can guide policymakers, agro-dealers, and farmers in making informed decisions regarding herbicide selection and usage, enhancing crop yields while minimizing environmental impacts. Furthermore, this study contributes to the broader understanding of herbicide application in tropical agricultural systems, fostering the development of sustainable practices globally.
