	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The study is significant because it has contributed to the existing literature on social studies curriculum implementation in schools. The study has also demonstrated how the Stake's Countenance Model can be utilized to evaluate school curriculum.	
Is the title of the article suitable? (If not, please suggest an alternative title)	The title is suitable and of interest.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is quite adequate. However, there is a need for the author to be sequential in the presentation of the abstract, beginning with the research design, population of study, sample and sampling techniques, instrumentation, analytical procedures, findings, conclusions, and the recommendation emanating from study findings.	
Is the manuscript scientifically correct? Please write here.	Yes. The adequate utilization of the concurrent triangulation design to collect, collate, and scientifically analyze subsequent data is an indication of the scientific correctness of the manuscript.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	In-text sources are quite sufficient and recent to the best of my knowledge.	
Is the language/English quality of the article suitable for scholarly communications?	Absolutely yes.
