Type of the Article	

#### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	This manuscript is valuable to the scientific community as it addresses the potential of agroforestry systems to achieve resilient and productive landscapes amidst global challenges, such as climate change, biodiversity loss, and land degradation. By integrating trees with agricultural practices, this manuscript highlights innovative approaches to sustainable agriculture, emphasizing both ecological and socioeconomic benefits. These insights contribute to the growing field of sustainable development by offering solutions to enhance food security, carbon sequestration, and rural livelihoods. Again, this manuscript presents a comprehensive view of agroforestry's role in combating environmental issues while supporting smallholder farmers, making it a significant resource for researchers and policymakers.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	Highly suitable	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract is comprehensive, covering key aspects of agroforestry, including its ecological, economic, and social benefits, as well as barriers to adoption. <b>Author(s) must consider refining the language for conciseness</b> and impact by reducing phrases like "this review highlights" or "the integration of trees, crops, and livestock." For example, rephrasing to "Agroforestry enhances productivity and mitigates environmental impacts such as climate change by integrating trees, crops, and livestock on shared land".  <b>** No keywords given</b> , kindly add the keywords for this work.	
<b>Are subsections and structure of the manuscript appropriate?</b>	The structure and subsections of the manuscript are well-organized. But the numbering is too much, to increase readability author(s) should revisit the numerical numbering. <b>NB:</b> Author(s) are advised to maintain the numerical numbering at the "Future Direction" section. Minor improvements in section transitions could enhance readability.	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	This manuscript is scientifically robust and technically sound, drawing on recent and credible sources to support its claims. The comprehensive study of agroforestry benefits and challenges demonstrates an in-depth understanding of the subject, with relevant examples from diverse agro-ecological contexts. The manuscript's scientific rigor is evidenced by its balanced examination of the ecological and socioeconomic impacts of agroforestry, highlighting its potential for sustainable agricultural transformation	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	The references are enough and cover recent studies. But references more older than 7 years should be reviewed (if applicable).
