Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Blast disease caused by <i>Magnaporthe grisea</i> is an emerging threat that has been gaining momentum in the last few decades. Its disease incidence is increasing due to the changing climatic conditions and it is imperative to understand the biology of the phytopathogen. The isolation of this particular phytopathogen is very tricky and sporulation is erratic, thus, it has become necessary to study the effect of different media compositions on its growth and development.
