

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_127845
Title of the Manuscript:	Impact of different cultural media on growth and sporulation of Magnaporthe grisea causing blast of finger millet
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript helps understanding the impact of different growing media on fungi is critical for maximizing the benefits of fungal cultivation, whether for food, medicine, environmental management, or industrial applications. It helps to optimize growth conditions, reduce costs, and develop more sustainable and efficient practices.	
Is the title of the article suitable? (If not please suggest an alternative title)	-	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The choice of medium can significantly impact the cost and efficiency of fungal cultivation. Some media may be more economical or easier to produce, reducing the cost of cultivating large-scale fungal cultures. Identifying cost-effective media is especially important in industries such as agriculture, where large volumes of fungal cultures are needed. I suggest adding the impact of oatmeal agar, which may be more cost-effective than other media, more efficient, and easy to maintain in the laboratory.	
Is the manuscript scientifically, correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	It is highly recommended to add some new references to strengthen the manuscript. Can be included either in the introduction or discussion section of why these eight media were chosen in this study. Has any previous study used this media to culture M. grisea?	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments		

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
