

Review Form 3

Journal Name:	Asian Journal of Education and Social Studies
Manuscript Number:	Ms_AJESS_128139
Title of the Manuscript:	REVEALING CONVENIENT LEARNING PRACTICES AND PROFESSIONAL GROWTH OF PUBLIC ELEMENTARY SCHOOL TEACHERS
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	It significant for the scientific community as it addresses the critical intersection of teacher development and effective learning strategies. By employing a quantitative research design, the study provides empirical evidence on how convenient learning practices correlate with professional growth among public elementary school teachers in the Philippines. The findings highlight that these practices not only enhance teachers' skills but also contribute to their overall effectiveness in the classroom, which is vital for improving educational outcomes.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title effectively encapsulates the main themes of the study. It highlights two critical aspects: convenient learning practices and professional growth, which are central to the research focus on public elementary school teacher	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	<p>The abstract of the article provides a clear overview of the study's purpose, methodology, findings, and implications. However, there are several areas where enhancements could improve its comprehensiveness and clarity.</p> <p>a. the findings section could be enhanced by including specific statistics or results that illustrate the relationship between convenient learning practices and professional growth. For instance, stating the strength of the correlation found could make the findings more impactful.</p> <p>b. Some sentences in the abstract are lengthy and could be simplified for better readability. Streamlining complex sentences would enhance clarity without sacrificing important information.</p>	
Is the manuscript scientifically, correct? Please write here.	The manuscript appears to be scientifically correct in its approach. The research design is appropriate for the questions posed, and the statistical analyses used are standard for this type of study.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, it is up-to-date and some references even though outdated but it is justified.	

Review Form 3

Is the language/English quality of the article suitable for scholarly communications?	a. The article is structured logically, with clear sections including an abstract, introduction, methodology, results, and discussion. This organization is essential for scholarly writing as it allows readers to follow the research process easily. b. The tone is predominantly formal and academic, which is appropriate for scholarly communication. Terms related to educational practices and research methodologies are used correctly, demonstrating familiarity with the subject matter.	
Optional/General comments	For the table showing the multiple regression results, please use APA format for the table. Provide some contradictory findings to further the discussion of your result.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
