

Review Form 3

Journal Name:	Asian Journal of Education and Social Studies
Manuscript Number:	Ms_AJESS_127966
Title of the Manuscript:	Barriers to Physical Activity of Bachelor of Physical Education Students
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	It is important to find out the barriers which lead to impaired physical activity as the physical education is the department which is quite active in all the physical activities and to guide the students. In this situation it is quiet important to find out the barrier as well the facilitators.	
Is the title of the article suitable? (If not please suggest an alternative title)	It can be further improved – "Barriers to Physical Activity of Bachelor of Physical Education Students- An Observational Study"	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	<ol style="list-style-type: none"> 1. In result part – numerical values should mentioned for each component for more precise result understanding. 2. "Apayao State College" college name is mentioned so many time it should be removed from result part as it is clearly mentioned in methodology. 3. In study design – observational study can be mentioned with semi structured interview. 4. "Barriers in the psychological, emotional, and cognitive categories were identified in almost all parts of the world that were covered by the included studies" This line can be deleted from abstract as to much result findings are mentioned. 	
Is the manuscript scientifically, correct? Please write here.	Some mistakes are present which can be corrected – <ol style="list-style-type: none"> 1. Proper reference is not cited in the introduction. 2. Number of reference is more in study but it is not cited in the paper. 3. Research design – it can not be case study , it is coming under observational study. 	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Some of the reference are cited in different style it should be corrected to one reference style. If possible to remove the link of reference it can be done and article should be cite in replacement of cite link.	
Is the language/English quality of the article suitable for scholarly communications?	Language quality is good.	
<u>Optional/General</u> comments
