Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_126390
Title of the Manuscript:	A Note on k-Circulant Matrices with the Generalized Padovan Numbers
Type of the Article	

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This paper is coined well and Padovan sequence and k-circulant matrices are correlated well. This paper is useful to the research community to develop some more results using Padovan sequence. Many more sequences like Padovan sequences may also be considered for real life applications.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	No addition or deletion needed in the abstract

Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This paper is scientifically strong because it relates number sequences and matrices which may be a future scope. The work of the author(s) is appreciable and they tried to bring out the applications of numbers. They can try to relate these article to today's research like cryptography and bit coins.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient and recent.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes
