

Review Form 3

Journal Name:	European Journal of Nutrition & Food Safety
Manuscript Number:	Ms_EJNFS_128196
Title of the Manuscript:	Evaluation of Physical, Textural, Colour and Sensory Attributes of Multi-Millet Based Composite Flour Cookies
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	<ul style="list-style-type: none"> - A manuscript presenting a novel blending and formulation which has significant impact to the scientific community by introducing innovative approaches and new findings. The research contributes to advancing knowledge and opening up new possibilities. 	
Is the title of the article suitable? (If not please suggest an alternative title)	<ul style="list-style-type: none"> - Yes, it is suitable but need some modification is required because the work is focused on the physical characteristics and organoleptic properties of the cookies. Hence, I suggest that the better clarifying title for this work should be in such a way "Evaluation of Physical and Sensory Attributes of Cookies Formulated from Multi-Millet Based Composite Flours" 	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	<ul style="list-style-type: none"> - The result of the study is briefly described in the abstract section. 	
Is the manuscript scientifically, correct? Please write here.	<ul style="list-style-type: none"> - The overall writing of manuscript is good and scientifically acceptable but the formulation of the composite flour is simply traditional way, it is randomly assigning the ratio. The way of formulation writing should follow the scientific method or quote traditional way. 	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Some references are old and needs updated references. There are a lot of recent references.	
Is the language/English quality of the article suitable for scholarly communications?	<ul style="list-style-type: none"> - The language is clear and understandable by any readers. 	
Optional/General comments	<p>In general</p> <ul style="list-style-type: none"> - The title should be corrected as in such a way "Evaluation of Physical and Sensory Attributes of Cookies Formulated from Multi-Millet Based Composite Flours" - The formulation should be scientific way not in traditional way; which means that it may refer some works or mention the place where traditionally used by the society somewhere lived. - Updated references are required for some old references mentioned in the manuscripts. - Ethical issue is required due to sensory evaluation, human beings are participated in the study.
