### Review Form 3

#### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The importance of this manuscript is that it talks about strategic practices that enhance performance in public secondary schools. I like it because it is aimed to improve performance in public secondary schools. I also like since it is scientifically researched.	
Is the title of the article suitable? (If not please suggest an alternative title)	No. It is too wide. The writer could have narrowed it to some aspects of school performance and also could have focused on one region (Mwanza) rather than the whole country (Tanzania) Alternative title: THE INFLUENCE OF STRATEGIC ANALYSIS PRACTICES ON SELECTED ASPECTS OF SCHOOL PERFORMANCE IN PUBLIC SECONDARY SCHOOLS IN MWANZA REGION TANZANIA: A REFLECTION TO THE STRATEGIC PLANNING MODEL	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is ok, it is comprehensive	
Are subsections and structure of the manuscript appropriate?	The introduction lacks significance of the study, no need of numbering the subtitles, The abbreviations and acronyms are not indicated.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The introduction is flat (it doesn't raise issues that prevailed the study. The reviewed literature does not come from empirical studies. I wish he had used empirical studies. The researcher does not explain the gap in the literature review. The study talks about students' academic performance yet the students are not among the participants, I wish they could be participants too.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Generally they are ok. However some of them are too old (2011, 2012 and 2013). These can be replaced with more recent ones.	
<b>Minor</b> REVISION comments	The language is fine.	
Is the language/English quality of the article suitable for scholarly communications?		
<b>Optional/General</b> comments	It is a good paper. The writer needs to cooperate the above suggestions
