Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	It is important to talk about the prevalence and factors influencing breastfeeding .	
Is the title of the article suitable? (If not please suggest an alternative title)	Suitable title	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is relatively good, but avoid writing abbreviations.	
Are subsections and structure of the manuscript appropriate?	Yes.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The research focused on the maternal knowledge and practices toward BF. It reflects the gaps in practicing BF despite the good knowledge. So, it is important to encourage such mothers to practice EBF and try to overcome any obstacle that may interfere with such practice. The research requires some corrections of the no. and % to match what present in the tables.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	No, most references are old and you require to add more recent ones.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes.	
Optional/General comments		

PART 2:
