

### Review Form 3

|                          |  |
|--------------------------|--|
| Journal Name:            | <a href="#">Journal of Experimental Agriculture International</a>                                      |
| Manuscript Number:       | Ms_JEAI_127904   |
| Title of the Manuscript: | Evaluation of red wine grape varieties for growth and yield parameters in semi-arid condition of India |
| Type of the Article      |  |

#### **General guidelines for the Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

<https://r1.reviewerhub.org/general-editorial-policy/>

#### **Important Policies Regarding Peer Review**

Peer review Comments Approval Policy: <https://r1.reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

**Review Form 3**

**PART 1: Comments**

|  | Reviewer's comment   | Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i> |
|--|--|---|
| Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part. | The grape is one of the most widely cultivated crops globally, and assessing the suitability of specific varieties for new locations is becoming increasingly important due to ongoing climate changes. One of the primary strategies for adapting to these changes in agriculture involves potentially relocating plantations to areas with more favourable conditions for growing certain crops, such as grapes. Consequently, evaluating the growth and yield parameters of grape varieties serves as a valuable instrument for determining their potential in a given viticultural region. |   |
| Is the title of the article suitable? (If not please suggest an alternative title)   | Yes  |   |
| Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.      | The abstract should be more informative; the aim of the study must be emphasized. There is a good example in the "Author guidelines" section of the Journal.   |   |
| Is the manuscript scientifically, correct? Please write here.  | A carefully selected set of varieties has been chosen for the study, utilizing the appropriate methods. The Discussion section includes the necessary references. Significant work has been done, and the results should be summarized. In the Conclusion section, the overall findings of the study should be presented, such as the confirmation that the studied parameters align with the classical values for these varieties, and maybe, that cultivating these varieties is economically beneficial, etc. Also, the punctuation needs to be checked.                                    |   |
| Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.                              | References are sufficient and quite recent.  |   |
| Is the language/English quality of the article suitable for scholarly communications?  | Yes  |   |
| <u>Optional/General</u> comments   | <b>The manuscript is ready for publication once the required amendments have been made.</b>  |   |

**PART 2:**

|  | Reviewer's comment   | Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i> |
|--|--|--|
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> |  |

**Reviewer Details:**
