Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This study will bring new information to the target community if author(s) arrange it in a right way. The paper has been written in a clear way and tried to explain the studied issue in a good way but it definitely needs major corrections.	
Is the title of the article suitable? (If not please suggest an alternative title)	Fair	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Needs to revise according to journal format and abstract writing rules.	
Is the manuscript scientifically, correct? Please write here.	Fair but I couldn't see enough discussion in this research; I strongly recommend author(s) include more discussions related to this study with previous new research in the field of study. I also want to see ANOVA table and mean comparisons tables also some more statistical analyses like correlations and regression. Author(s) have 48 treatments; they are able to perform cluster analysis as well.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Include at least 10 references after 2020.	
Is the language/English quality of the article suitable for scholarly communications?	Fair
