TitleoftheManuscript:	RoleofroutinebonemarrowbiopsypreoperativelyinNoncirrhoticportalhypertension.
TypeoftheArticle	OriginalResearchArticle

PART1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that a author should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The subject of the manuscript is important to the scientific community, mainly because it is the first to describe biopsy in this population. However, we need more studies to discuss the true need for this exam. The discussion needs to be explored further, even though this study is the first on biopsy in these patients. I think that since the N is very small, it is difficult to rule out a biopsy for them.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Is the manuscript scientifically correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	Suggested keywords: bonemarrow, biopsy, non-cirrhotic portal hypertension, cytopenia, portal venous obstruction, extrahepatic, portal fibrosis. The article needs to be formatted.
