

Review Form 3

Journal Name:	Asian Journal of Orthopaedic Research
Manuscript Number:	Ms_AJORR_127330
Title of the Manuscript:	A Prospective Inter-Observer Reliability Analysis of Plain X-ray, CT and MRI in Thoracolumbar Fractures and their role in decision making.
Type of the Article	Original Research Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript demonstrated importance of MRI in spinal fractures. It also demonstrated that TLICS has less disagreement between surgeons in making decision about management of spinal fractures. The manuscript showed various opinions between surgeons presented and showed it's not definitive method to manage patients.	
Is the title of the article suitable? (If not please suggest an alternative title)	Change title scientifically. for example: Role of Plain X-ray, CT and MRI in decision making of Thoracolumbar Fractures: Prospective Inter-Observer Reliability Analysis.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Grammar of sentences need minor changes, especially in abstract. Study in valuable, but it's not reflected completely in abstract.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Result in not straightforward and complexity was seen. The results are reasonable.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	

Review Form 3

Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Grammar of sentences need minor changes, especially in abstract.	
Optional/General comments	Some change need. For example, "anterior-posterior both surgeries" change to "anterior-posterior approach". Please say more about type of event. because other (n=16) is more than accident (n=13). Please suggest where we can use X-Ray alone or X-Ray and CT without MRI in discussion and summarize in conclusion.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
