Journal Name:	<a href="#">Journal of Experimental Agriculture International</a>
Manuscript Number:	Ms_JEAI_127906
Title of the Manuscript:	Effect of Biofertilizers at Different Fertility Levels on Nutrient Content and Uptake by Gobhi Sarson ( <i>Brassica napus</i> L.) under Himalayan Region
Type of the Article	

**PART 1: Comments**

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	Good idea, however, this research lacks morphological growth characteristics like plant height, fresh weight ,dry weight, No of flowers and grains..... etc. Why the researcher did not analyze NPK in soil during the experiment, therefore giving an indication regarding NPK in grains and straw.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	<b>Good title</b>	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	<b>Abstract needs more details</b>	
<b>Is the manuscript scientifically, correct? Please write here.</b>	Scientifically correct , but it needs more analysis and treatments	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	Reference were updated	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	Language is good	
<b>Optional/General</b> comments	This work contains some points. 1. The researcher didn't describe the treatments in the methods section, as shown in the results tables. 2- Additional soil analysis was required to confirm plant analysis. 3- While the results are positive, it's important to consider the impact of microorganisms on the chemical fertilisation.
