

### Review Form 3

Journal Name:	<a href="#">Asian Journal of Research and Reports in Hepatology</a>
Manuscript Number:	Ms_AJRRHE_126681
Title of the Manuscript:	Effects of aqueous seed extract of ripe carica papaya on total bilirubin and aspartate aminotransferase (ast) in rats treated with monosodium glutamate (msg)
Type of the Article	

#### **PART 1:** Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Hepatic injury caused by food additives, chemicals and toxins are of significant clinical importance. We have limited options for treatment. From this perspective easily available natural products could be good alternatives to solve the problem. That makes this study an important one for the scientific community. Further exploration can be done to find better drugs using plant extract.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, it reflects what is the issue and what was done.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, the abstract is adequate.	
Are subsections and structure of the manuscript appropriate?	All subsections are adequately elaborated with appropriate headings.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The design and methodology are precisely elaborated and is scientifically sound. Each step is elaborated so nicely that it makes it easy for one to understand and repeat the process. From procuring C. Papaya seeds to extraction of the crude product and administration to the rats are clearly mentioned. Results are concise and clear to predict.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
<b>Minor</b> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?		
<b>Optional/General</b> comments	May be publishes with the minor editions.
