

### Review Form 3

Journal Name:	<a href="#">Asian Journal of Biology</a>
Manuscript Number:	Ms_AJOB_127717
Title of the Manuscript:	Effect of cadmium chloride administration and restraint stress on cardiac function of female Wistar rats.
Type of the Article	

#### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This research is of great importance to scientific communities because it will not only avail them the knowledge of the risk factors associated with the heavy metal, cadmium, which poses toxicity to the environment, animals and humans but would also give them knowledge on how to prevent or reduce the risk of being affected by the toxic traits of this metal especially those who already have one health risk or the other and also help to reduce toxicity's to the heart.	
Is the title of the article suitable? (If not please suggest an alternative title)	An alternative title could be "Effect of cadmium chloride administration and restraint stress Model on cardiac function of female Wistar rats".	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Is the manuscript scientifically correct? Please write here.	Yes it is scientifically correct	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes they are sufficient and recent but not all of them were properly arranged in the APA format	
Is the language/English quality of the article suitable for scholarly communications?	Yes, but some typographical errors need to be corrected	
<u>Optional/General</u> comments	It is a good research work that requires just a little correction which has been stated above.	

#### PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
