

**Review Form 3**

Journal Name:	<a href="#">Annual Research &amp; Review in Biology</a>
Manuscript Number:	Ms_ARRB_127381
Title of the Manuscript:	<b>FACTORS INFLUENCING FARMER ADOPTION IN PROBLEMATIC SOIL RECLAMATION PRACTICES: A COMPREHENSIVE REVIEW</b>
Type of the Article	Review Article

**PART 1: Review Comments**

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Problematic soil-poseess various problems which adversely affected soil fertility and crop productivity. Reclamation of problematic soil not only requires technical knowledge but also needs urgent attention regarding the different amendment use for reclamation. Adoption of different technologies and methods which results in improvement on soil conditions which ultimately improved the crop growth and development in general and higher yield in particular.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Scientific application of soil amendments for the reclamation of problematic soil attracts much attention to the scientific communities as well as other stakeholder. The present topic chosen for the investigation is quite up to the current scenario of land degradation and restoration. The manuscript presented in systematic scientific way comprising of standard methods and materials, explanatory results and elaborative discussion. The literatures cited were also of current resources.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	Yes	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?		
<u>Optional/General</u> comments
