

### Review Form 3

Journal Name:	<a href="#">Annual Research &amp; Review in Biology</a>
Manuscript Number:	Ms_ARRB_127381
Title of the Manuscript:	<b>FACTORS INFLUENCING FARMER ADOPTION IN PROBLEMATIC SOIL RECLAMATION PRACTICES: A COMPREHENSIVE REVIEW</b>
Type of the Article	Review Article

#### **PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Soil health is a key factor in view of agriculture and environmental issues and there are various soil reclamation techniques. Adoption as well as implementation of these techniques is important in enhancing soil quality. In this respect, this review paper discusses the factors affecting and enhancing the adoption of these techniques.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title is suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, abstract is comprehensive and clearly represents the key areas of this review article.	
Are subsections and structure of the manuscript appropriate?	The manuscript needs revision, as sections and subsections are not numbered. It is recommended to divide the sections and subsections with numbers properly.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Manuscript is scientifically appropriate but has some shortcomings such as the introduction is very short. The authors are advised to include factors affecting soil properties as well as discuss the various reclamation practices with proper references in the introduction part. The authors are further advised to include the data of various work carried out in adoption of soil reclamation techniques in tabular form with references.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	Yes, references are sufficient.	
<b>Minor</b> REVISION comments  Is the language/English quality of the article suitable for scholarly communications?	English language needs revision.	
<b>Optional/General</b> comments		

**Review Form 3**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
