

### Review Form 3

Journal Name:	<a href="#">Biotechnology Journal International</a>
Manuscript Number:	Ms_BJI_127736
Title of the Manuscript:	Bioenergy potential of various wastes (cassava residues, poultry droppings and household waste) in the gbêkê region (Bouaké, Central Ivory Coast).
Type of the Article	Original Article

#### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article is not suitable because the author only reported about biogas potential.  The title must be changed into " Biogas potential assessment of co-digestion of various wastes (cassava residues, poultry droppings and household waste) in the gbêkê region (Bouaké, Central Ivory Coast)"	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is not enough comprehensive.  Figures about biogas potential should be added in the last part of the abstract.	
Is the manuscript scientifically, correct? Please write here.	The authors set up experimentations by doing co-digestion of available wastes but they did not mention it in the introduction. Same units have to be used for all the formula: quantity must be expressed in kg or in liters The results of biogas production have to be expressed by m <sup>3</sup> /kgVS so the authors have to do calculation in order to keep the results more standardized. Discussion have to be added by analysing the effect of each composition into biogas production. The author must give more arguments in the obtained results.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient. I suggest to add the following reference which reported with co-digestion of various substrate : Soha, 2021 <a href="https://doi.org/10.1016/j.rser.2021.110822">https://doi.org/10.1016/j.rser.2021.110822</a>	
Is the language/English quality of the article suitable for scholarly communications?	Some paragraphs, tables are still written in French	
<u>Optional/General</u> comments	<b>Manuscript to be revised and written in English.</b>	

**Review Form 3**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

**Reviewer Details:**

Name:	<b>Rabetokotany-Rarivoson Nantenaina</b>
Department, University & Country	<b>University of Antananarivo, Madagascar</b>
