<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	As per the conclusion of investigation groundnuts could be treated with GA <sub>3</sub> -100 mg/L seed as a hardening treatment and 500 mg/L of CCC applied topically to increase yield and its component traits like number of pods per plant, pod yield per plant, seed yield per plant, seed yield per ha, shelling percentage, and harvest index. In Agriculture, enhancement in yield for any crop is always remains an important focus point for food security. Therefore, this study may help to increase yield of groundnut seed which ultimately leads to enhancement in edible oil which is always a concern for government.
