

Review Form 3

Journal Name:	South Asian Journal of Social Studies and Economics
Manuscript Number:	Ms_SAJSSSE_127639
Title of the Manuscript:	Post Covid-19 Growth of Midcap Mutual Funds in India: A Study on Top Ten Midcap Mutual Funds.
Type of the Article	

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Are subsections and structure of the manuscript appropriate?		
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =		

Review Form 3

<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p><u>Optional/General</u> comments</p>	<p>Title of the paper - Post Covid-19 Growth of Midcap Mutual Funds in India: A Study on Top Ten Midcap Mutual Funds</p> <p>Abstract The best candidates for explicit exposes are the comparative growth metrics and the results of volatility research based on Sharpe, Treynor, and Jensen indices. Overall, the message should not exceed 200-250 words to provide density and breviness.</p> <p>Introduction: Simplify some historical issues so as to pay more attention in explaining the roles of mid-cap firms after the COVID-19 pandemic. Stress upon the role of digitisation and SIP inflows in the progressive opening up of mutual fund investment in India.</p> <p>Figures and Tables: Provide a sample image or graph for "Figure 1: On the whole, I found that changing the axis label from "AUM_UB" to "Total AUM" provides with a clearer view. Check other elements of the table and make sure that they correspond most appropriately to the text story.</p> <p>Review of Literature: To ensure continuity, ensure you focus on the research gaps within existing literature, especially those relating to the performance of small and mid-cap fund during the post pandemic period. Link these gaps, one way or the other, to your study objectives.</p> <p>Objectives of the Study: It's better to split them into sub points for easier comprehension. They should always be in congruence with the methodologies used if need be.</p> <p>Research Methodology: Filter the sources' credibility into the paper (for instance, the data of AMFI were audited). Explain briefly why Treynor, Sharpe, and Jensen are used for the evaluation of fund performance?</p> <p>Data Analysis: Present tables compactly round effective data points, such as trends or compound annual growth rate. Include bar diagrams for data of table-1 and table-2 to determine growth rate of SIP inflow in clicks.</p> <p>Conclusion and Implications (Add a New Section): Summarize findings: the possible trends of this growth, the stability of the mid-cap fund after COVID-19, and the future of mid-cap segment. It should also have application to retail investors, fund managers, and the policymakers.</p>
