

## Review Form 1.7

Journal Name:	Asian Journal of Research in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_AJRIMPS_111662
Title of the Manuscript:	Antioxidant properties and effects on nitric oxide release of alcoholic extracts of some selected Cameroonian medicinal plants
Type of the Article	Original Research Article

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>1. The manuscript is important to the scientific community. Conventional medicine is beginning to show its limits regarding many pathologies such as male infertility. Finding solutions from traditional medicine would be of enormous benefit to humanity.</p> <p>2. The title is correct</p> <p>3. In our opinion, the well-structured summary contains all the useful information.</p> <p>4. Yes</p> <p>5. The manuscript is scientifically correct but we suggest in the future doing the same work with aqueous extracts of the selected plants. Indeed, potions are traditionally prepared with water and not alcohol.</p> <p>6. Concerning the references, they are quite old but that is understandable because most of them are references on the methods used. And these methods are mostly old. However, we do have current references for recent information.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	Yes	
<p><b>Optional/General</b> comments</p>		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Are there ethical issues in this manuscript?</b></p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
