

**Editor's Comment:**

This final stage manuscript can be now published but I suggest to revise considering following comments;

1) increased respectively. (Fenta. et al., 2017). - there should not be dot '.' either after respectively or Fenta - correct in all places

2) Water is said to be the most abundant natural resource as it covers 70% of the earth () - citation in yellow mark.

**Editor's Details:**

Dr. Him Lal Shrestha  
Associate Professor, Kathmandu Forestry College, Nepal.
