	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Yes, but it would be better if the result added by the various analysis. Don't just use one statistical analysis, you can combine with the other analysis besides ANOVA that makes your results more attractive and various.</p> <p>I think the title is quite appropriate.</p> <p>I think yes.</p> <p>I think it must be more tidied up and looked more detail especially in Result and Discussion, and also the Conclusion.</p> <p>I think it's correct.</p> <p>The references used is too few and not updateable with the conditions like now. There are many Journal provide the same treatment with the same commodities also.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>It would be better if the diction used is consistent.</p>	
<p>Optional/General comments</p>	<p>The result should be analyzed by using more analysis methods that can provide figure to attract the readers.</p>
