

Editor's Comment:

First, I reviewed the article. Then, I examined the referees' reports and matched them with the author's feedback. I would like to point out the issue that caught my attention only in two places where the author made the corrections specified by the referees.

First case: title (Key elements of the Inter Professional Education (IPE): Perceptions amongst pre-registration students in the different health professions in Sri Lanka.) (Interprofessional = Shouldn't it be written adjacently?)

Second case: References (1. Centre for the Advancement of Interprofessional Education (CAIPE) (1997, updated 2002) Interprofessional Education: A Definition. CAIPE bulletin no. 13. Available online at <https://www.caipe.org/resources/publications/archived-publications/caipe-bulletin-nos-13-1997-interprofessional-education-what-how-when> (accessed 19 January 2022) (an old date. When was this study done?)

The two issues I mentioned above can also be reviewed and published.
