

Review Form 1.7

Journal Name:	Asian Journal of Biology
Manuscript Number:	Ms_AJOB_113098
Title of the Manuscript:	Population dynamics of Gudusia chapra (Hamilton, 1822) from the Kaptai Lake, Bangladesh
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Yes, the MS tackles a very important aspect of fisheries management. understanding the population dynamics of key commercial global fisheries underpins the state of those fisheries hence providing conservation and management strategies for sustainable exploitation.</p> <p>2. Yes, it is.</p> <p>3. Yes, but it can be enriched (see my input in the main text).</p> <p>4. Yes.</p> <p>5. Yes.</p> <p>6. The references are most recent and sufficient.</p> <p>- The author/s ought to rewrite the statistical analysis part. Standard analysis methods are not classified as statistical analyses. The methodology should be rewritten especially on the areas I have pointed out in the main text.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes, I have given my input in the main text.	
<p>Optional/General comments</p>	This is a very important scientific communication for the sustainable management of Gudusia chapra fishery in L. Kaptai.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
