

**Editor's Comment:**

After having scrutinized the peer review documents for the manuscript titled "Climate Change Impacts on Agriculture in the Garhwal Himalayas: A comprehensive analysis of shifts, changes and adaptation strategies", I saw that the manuscript has been reviewed by tree different reviewers. All the reviewers have accepted the paper with high scores. The authors made appropriate changes to their manuscript in accordance with the reviewers' comments. Therefore, the manuscript can be accepted for publication in the Journal of Geography, Environment and Earth Science International.
