	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1- The manuscript could be important for scientific community, but we need more figures to explain more that in my opinion</p> <p>2- the title of the article is suitable</p> <p>3- The author must write the abbreviation collared in yellow colour to make them easy to understand from the beginning.</p> <p>4- The author must write <u>and plants</u> not just <u>plants</u>: and same thing for <u>84.3%/and 84.3%</u> And the must write correctly the following words: <u>California</u> : California the treatments <u>was</u> tested: the treatments were tested The author must introduce completely the abbreviations collared in yellow colour to make them easy for understanding: <u>EC, OPSTAT,</u> The author must explain this "by" by [12]. The paragraph selected in green color means author must avoid repetition</p> <p>5- the author must improve the level of the writing</p> <p>6- the references aren't recent, The references colored in gray color mean the author must choose references between 2016-2022.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>The author must do a huge revision</p>	
<p>Optional/General comments</p>	<p>Finally, I did my best to review the paper, on the other hand, the authors must do a global and deeper revision correctly</p>
