

Review Form 1.7

Journal Name:	Asian Journal of Pediatric Research
Manuscript Number:	Ms_AJPR_112866
Title of the Manuscript:	IMDDHH: a rare entity or a common masquerader?
Type of the Article	Case report

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The author has highlighted a rare case missense variant with overlapping features of inborn errors of immunity. Till date this variant has been identified in 4 cases.</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p>Optional/General comments</p>	<p>1. This manuscript needs to be checked by some native speaker as I can see a few errors in spelling and grammar. Or you can use some freely online available tool to check the grammar and rephrase the statement in a better way.</p> <p>2. Gene names should be in italics throughout the manuscript.</p> <p>3. It might be a good idea to check the evolutionary conservation of the identified variant, if possible.</p> <p>4. Kindly include the most recent references in the reference rection [within 5 years of span]</p> <p>5. Write the MIM number of all the genes, OMIM number of the disease and also include the canonical transcript of the gene.</p> <p>6. I can see at few places the author has unnecessarily capitalized the letter. Please change it.</p> <p>7. Kindly change the spelling, its <i>et al.</i> in italics throughout the manuscript</p> <p>This study can be added as it adds more data about inborn errors of immunity. The manuscript can be published after modifying on few parameters</p>
