

Editor's Comment:

Review is suitable for publication after incorporation of following suggestion

1. It is not research paper, hence remove results and discussion and put subheading as per the text.
2. References are too much which do not show authenticity as per the text. try to remove unauthentic references.
3. Write the name of journal correctly eg. World Development Perspectives,
4. Remove mechanism word from given figure, figure indicating benefit and effect of biofortification
pl. find attached file.
